About Us

ABOUT OURSELVES: SUPER SAINI is a well known and established name amongst the leading manufacturers of auto parts whenever there is reference to Brake Parts. Our elders began with SAINI SPARES(REGD), DELHI, in 1967 with capability to manufacture HYDRAULIC WHEEL CYLINDERS, MASTER CYLINDERS. Then came the new generation of vehicles like Eicher Canter , DCM Toyota, Swaraj Mazda , Maruti, etc. It was felt that new technologies have to be invented to give proper spares which work in the new environment. The job was successfully completed with achievement in making cylinder & rubbers with latest technologies. Now we have the largest range in terms of range of spares & vehicle makes. Thus ours has been a case of rising from a modest beginning to a well defined, well organised, well managed and well established industry .We are the pioneers to introduce India's first powder coated Brake Cylinders. **FACTORIES:** Our Production units comprise of a large covered area with latest and imported sophisticated machinery with technicians for quality control and qualified experienced workers . **RESEARCH AND DEVELOPMENT:** We have our in-house R & D unit that keeps us abreast of time. Every unit carries the advantage of innovation and research by qualified engineers. **QUALITY CONTROL:** We have in-house fool proof system for testing our products and apply strict quality control as per Indian and International standards. All raw materials as well as finished products are tested .Consistency...
