S. R. Furnace Lining Contractors

<https://www.indiamart.com/srfurnace/>

S. R. Furnace Lining Contractors is one of the leading organizations offering **Aluminium Melting Furnace Lining Services, Ceramic Fibre Lining Services** and **Electric Furnace Lining Services.**

About Us

S. R. Furnace Lining Contractors specialize in High Temperature, Severe Service and Complex Refractory Linings, Insulation Systems and Acid Resistant Masonry for the industrial markets. We combine refractory material science with good engineering practices and experienced installation crews to provide true turnkey lining solutions to your maintenance and capital project needs. We have an excellent staff with experience of several decades, who are familiar to both brickwork and concrete masonry.

Our associates keep pace with the frequently changing and renewing materials and construction practices; they excellently apply both the masonry technology and the monolith construction technology, this latter having been more and more popular.

We continuously monitor the latest developments as for the materials and processes, and we can install and apply them without any problem, whether it is about brick, monolith concrete or fiber refractory blankets. In order to maintain our competitiveness on the market and to be able to be readily available, we have significant stocks of refractory bricks and the commonly used refractory concrete.

We have a good overview over the applicability of the state-of-art refractory and heat insulation materials thanks to our cooperative relations established with , Altoni Union, Industrial Minerals. Our employees work features high standard of precision , repair and lining of small,...
