<https://www.indiamart.com/sribs/>

We are counted among the well established manufacturer and supplier of a wide range of disinfectants & sanitizers, feed supplements & adsorbents for application in aquaculture. We also supply products for poultry, dairy and piggery areas.

About Us

Incorporated in the year **2007**, **SRIBS Biotekno International** is a reputed name engaged in exporting and supplying of a comprehensive range of **disinfectants, feed supplements, poultry supplements, cattle feed supplements, chicken feed supplements, feed vitamin supplements**, growth promoters and probiotics, catering to the varied demands of aquaculture, poultry, dairy and piggery areas.

Our products are specially designed and carefully blended with suitable components for specific purpose. For example herbal extracts were used in **supreMo**, where it can be used as an alter-biotic for replacing antibiotics, as also useful for several other advantages, innovative rumen specific probiotic formula was used for **milQx** to improve gut efficiency, so that maintaining good digestive system in place to improve nutrient absorption, protein synthesis which results in augmentation of milk production, releasing stress, maintaining good health. Specific synbiotic formula was used for **enHanso** to provide synbiotic protection to pig.

We are getting our products manufactured through contract manufacturing, and are procuring quality assured products from reputed brands like **suPerio, uniQsan, viaMina, groFast, proLive, hiBindz, toPro, cheQz, supreMo, milQx** and **enHanso**. These products comply with the international standards and norms and are offered to our clients in several packages and specifications. The disinfectants offered by us are used for pond...
