Steam Turbine Engineering India Private Limited

<https://www.indiamart.com/steam-turbine-engineering/>

Leading manufacturer of replacement parts for turbines, generators, coal pulverizers, pumps, and compressors

About Us

Power Plant Services is a non-OEM, aftermarket turbine, generator, valve, and coal handling equipment standard and custom parts manufacturing company. We have been serving multiple critical industries, including power generation, steel and mining, out of our Melrose Park, IL facilities for over 10 years. Our reputation is based on expedited delivery of high quality machined and fabricated components with exceptional customer service. From emergency breakdowns to planned outages, we understand the diverse needs of our customers. We are an international company that services the United States, Canada, Mexico, IRL, Italy, Saudi Arabia, South Africa, India, and Indonesia.
