We are a proficient and distinguished manufacturer and exporter of **Chemical Plant Equipment**. With consistent enhancement in products and diverse range, our offerings are highly appreciated in the industry.

About Us

Established in the year **1998**, "**Sunrise Process Equipments**" have evolved as a prominent manufacturer and exporter of **chemical plant equipment**. We are considerably efficient in offering products and also value added services for **Dyes, Dye Intermediates, Pharmaceuticals, Pesticides & other organic & inorganic plants**. Our offerings can be distinguished on the attributes of high-utility, low maintainability and longevity. These equipment find extensive application in various industries that includes Chemical, Pharmaceuticals, Dyes, Food Products and Dairy. Our state-of-art infrastructure facility, dedicated professionals, use of suitable processes and enhanced technology has enabled us in fulfilling expectations associated with us. We specifically design structural fabrication, erection, piping, site storage tanks & other related works in compliance with the client. Furthermore, surface linings like lead bonding, FRP lining, acid proof brick lining and rubber lining can be availed. To ensure efficiency in business activities, we have collaborated with the organizations that provide us enhanced support. These admirable sister concerns are **M/s. Sunstar Engineering Pvt. Ltd., M/s. Sunbeam Engineering Works, M/S. Chaudhari Engineering Services** and **M/s. N.V. Chaudhari & Associates**. Under the influential leadership of our mentor, "**Mr. N. V. Chaudhari**", we have grown from strength to strength. He...
