We are engaged in conducting Corporate Training Programs such as Software Training Programs related to Technical Writing, E Learning, E Publishing, and Multimedia. We also undertake Foreign Languages training for Corporate Clients.

About Us

We are a group of professionals who specialize in providing corporate training programs that includes technical writing, e-learning, software education courses, professional education courses, online technical writing courses, e-publishing and multimedia. In these domains we not only offer professional training but also take up projects. With our industry experience of more than two decade, we have carved a niche for ourselves in these domains.

We undertake projects in EPublishing, ELearning. This has been possible because of our experienced professionals, diligent workforce, and our ethical business policies. We offer Diploma Courses and Certificate Courses in the above-mentioned fields. Conducted with utmost sincerity, we have earned numerous accolades for our proficient, economical, and authenticated training programs.
