## About Us

SUPPLYCO was established in the year 1992 in Bangalore The Garden City Of India. Supplyco specializes in Organic Soil and Bio Fertilizers, Landscape Supplies, Landscape Design and Execution, Natural Raw Material for Dry Flower Arrangements and Eco-Friendly Products for hotels and resorts. The punchline of Supplyco is RECHARGE THE EARTH THE NATURAL WAY. We at Supplyco believe that Nature has been exploited to the benefit of the Human Beings and therefore every one of us is partly responsible to help restore the ecology and help nature regain. In pursuit of this we strongly advocate use of Natural Organic Products in Agriculture and Eco-Friendly bio degradable products in day to day life, which alone will be a major contributor for the turn around. We have associated with groups of like minded persons and produce a range of products for agricultural applications, which will replace the necessity of Chemical Fertilizers and Pesticides. We also deal with a variety of Eco Friendly toiletries and guest amenities for use in the Hotel Industry which play a great role in emphasizing the importance of Eco Care to the world wide travelers. We look forward to a global acceptance of this philosophy which will lead this world towards a healthy living.
