About Us

Suraksha Company was established in the year 1994 some likeminded people in the field of social work came together to contribute for the overall development process voluntarily. This small effort later was organized in a proper manner and christened as SURAKSHA (A Society for Integrated Voluntary Actions & Services). Later in the year 1996 it was registered under various Acts to make the intervention more effective. SURAKSHA has been sincerely working for the marginalized sections of Dalits, Adivasis, PWDs since last 16 years in one of the poorest and less privileged areas of Odisha.

Among the Adivasis the “soura” tribal groups who are the dominant, are unfortunately the poorest. They have been recognized by the Govt. of India as primitive tribal group (PTG). Typical to the problems faced by primitive tribal groups, they are suffering from the evils like acute poverty, impoverishment, mal-nutrition and ill health.

The efforts are being made by the Government and Non Government Organizations (NGO) to provide financial and technical assistance to the tribals through various schemes and development programmes in the country since independence. Due to geographic condition and various factors there is need for several interventions for the development.
