## About Us

Surya Power Engineering Services was established in the year 2002. We have sound experience as per the factory rules and regulations like an electrical inspector, inspector of factory's, pollution control and safety with rich 26 years experience in operation and maintenance, erection and commissioning, top and major overhaul of power plants in various large organizations. We have an experienced and dedicated team of engineers committed to provide quality services in the above mentioned areas. We also provided training to our technical team in order to upgrade their knowledge and skills.
