

Synergia Bio Sciences

<https://www.indiamart.com/synergia-bio-sciences/>

Manufacturer of chemicals, drugs etc. Also offering integrated product development services, clinical development services etc.

About Us

Synergia Bio Sciences is a unique, global biopharmaceutical services and manufacturing company that helps emerging and established firms commercialize novel and innovative biotech and pharmaceutical products and therapies. Clients trust Synergia to deliver customized strategic guidance and creative hands-on solutions to address their unique regulatory, clinical trial and quality assurance challenges at every stage of the product lifecycle.

We combine expertise from academia and industry by partnering with several world class research institutions including Harvard Business School (HBS), Massachusetts Institute of Technology (MIT), Cambridge University and Indian Institute of Management Bangalore (IIMB) on industry focussed research and actively interfacing with government agencies, regulatory authorities and industry partners.
