SYNMEDIC Laboratories is one of the most innovative and progressive organizations, involved in manufacturing pharmaceutical formulations and bulk drugs with operations spanning various countries across the globe.

## About Us

SYNMEDIC Laboratories is one of the most innovative and progressive organizations, involved in manufacturing pharmaceutical formulations and bulk drugs with operations spanning various countries across the globe. The organization was conceived with the primary mission to provide quality healthcare to the ailing millions all over the world at an affordable cost, and this still remains the guiding force for us.

The company initially entered the pharma market with quality products in the vital healthcare segments such as Antibacterials, Analgesics/Antipyretics and Anti-inflammatory drugs. Greatly encouraged by the wide acceptance and positive market response, it expanded its product range to various other segments like Cardiology, Psychotropic, Neuro-Psychiatry, Endocrinology, Anti Tuberculosis, Anti Malarial, Gynecology, Gastroenterology and also bulk drugs. A complete range of Anti Retroviral products and latest molecules in Cephalosporins and Macrolides group of antibiotics constitute a large part of the company's exports.
