

# SYN Water Technologies Pvt. Ltd.

<https://www.indiamart.com/synwatertechnologies/>

We are one of the noted organizations, engaged in supplying an extensive range of testing kits, water testing kits, wastewater testing kits and Equipment. These are cost effective and are in conformity with international quality standards.

## About Us

Established in the year 2003, we are an **ISO 9001:2008** certified organization, engaged in supplying of **Ro Plants, Ro Water Plants, Ro Treatment Plants, Water Treatment Chemicals and Associated Plants & Equipment**. We procure these products from renowned vendors to assure that our clients receive superior quality products. Our vendors use sophisticated technology to ensure optimum performance and long working life of **Water Treatment Plants and Equipment**. Our company is formulating tailor made products using quality ingredients, these chemicals are eco-friendly and are appreciated by clients for purity and accurate composition. Moreover, our chemicals are also effective in avoiding problems related to corrosion, scale, sludge and bio fouling, which in turn increase the efficiency of boilers and other systems. Understanding varied requirements of power plants and cement & paper industries, we offer these chemicals in various grades. To assure the passage of premium quality products, we have nurtured a team of diligent and hard working professionals. They make full use of available amenities with a view to offer products as per changing demands of clients. Our streamline business operations and quality conscious approach have helped us to acquire huge base of clients in India. Some of our major clients are **Bhausan Industries, LG Electronics, Ambuja cements and Aditya Birla Chemicals**. We have a carved a niche in this domain...
