As manufacturers and suppliers, we are engaged in offering a comprehensive range of Industrial Minerals.

## About Us

We, **Talchem International, Udaipur**, manufacture and supply a comprehensive range of Industrial Minerals that have wide application in areas spread across several industry verticals. Our company pays special attention to leverage the quality of our products. We study international quality parameters to scale up the quality of our range to higher levels. Our infrastructure facility assists us in fulfilling our objective of satisfying our clients to the best of our abilities. The manufacturing unit that we have provides us with all the facilities to carry our production in most sustained manner. Our manufacturing unit has all the tools and equipment for seamless production of our range. We have a research and development unit that regularly tries out various combinations and permutations to innovate and scale up quality of our product range. The sophisticated warehouse we have stores up our assortment of minerals in safe custody waiting for delivery to the end users. Our **Udaipur, Rajasthan, (India)** based organization has come a long way since inception with constant product research and development. The **Owner** of our organization, **Mr. Vikas Nalwaya** has a vision to serve clients with the most qualitative product range and thereby, we are able to enhance the productivity to a large extent. Today, we are happy that we are living through the reality of serving our clients to the best of our abilities.
