About Us

All the products are custom made as per the specifications laid down by the esteemed customers. Customers company logo, trade name can be engraved on all the products. The packaging boxes and bags can be printed as per the customers specifications.

All the parts are designed for thier compatibility with the mating parts. Eliminating variability is the goal of madern quality programmes. Movement of raw material is closely monitored at every stage to meet the standards and specifications set by the customers.

All the parts are interchangeableable with the leading brands available in the market. Any maintenance required can be easily carried out without the use of special tools.

Developments stemming from the continuous research programmes on the raw materials have shown customers how Taurus accessories can not only cut production cost, but also improve products quality the vital factors for survival in today's competitive international markets.
