Technocare Systems, established in the year of **2001** as a **Manufacturer of Core Plug, Cover Block, Milk Container Lid, Travel Soft Slipper and much more.**

About Us

Technocare Systems, established in the year of **2001** as a **Manufacturer** of **Core Plug, Cover Block, Milk Container Lid, Travel Soft Slipper and much more**. These products are durable as well as cost-effective to use. With success of several products in the market, we decided to add more products in our portfolio to meet the versified demands of the clients. Thus, our organization is providing one single place with the out of products. Moreover, to maximize customer satisfaction, offered products are thoroughly tested on strict quality parameters to ensure zero-defect manufacturing. Our large pool of worthy clients indicates our greater reliability and transparent business practices. Backed with well-structured infrastructure and advance facilities, we are proficient in developing the wide spectrum of products across our department. Our skilled team of professionals is committed to finish their job with high perfection and seamless efforts. They are also efficient in customizing the product if it is required by the clients. Through a wide distribution network, we ensure that our clients will receive their ordered products within a given time period. **Mr. Sanjay Sane / Hitesh Patil**, our great mentor, has been heading the whole organization with high professionalism which inspires us to take utmost care in designing and developing offered products with high industrial standards.
