

Techno Machine Tools

<https://www.indiamart.com/technomachinetools/>

We are a leading trader, supplier and exporter of Lathe Machines, Power Press Machines and many more. Observing international quality parameters in our entire range, we have enhanced our status remarkably.

About Us

Techno Machine Tools was intercepted in the year **1995** as a **sole proprietorship firm in Chennai, Tamil Nadu**, we have been into **trading, supplying and exporting of Grinding Machines, Milling Machines, Drilling Machines, Lathe Machines, Power Press Machines, Plate Bending Machines, Shearing Machines, Press Brake Machines** and more. Our vendor base is quite extensive helping us to cater the ever-growing demands of our clients in an appropriate manner. The whole range consists of specific attributes making them prominent at domestic level as well as in the international market. Sturdy construction, corrosion resistance, compact designing, high motor power are some of the features that have increased their demand tremendously all around the globe. Apart from this, a formidable infrastructure and an extensive supplying chain have made it possible for us to satisfy the huge mass in a convenient way. Sticking to the international quality standards, our entire range of products is tested at intense level before delivering them in the market. We have been very lucky to work under the astute guidance of **Mr. Bharat Katkoria (Proprietor)**. His wide industrial experience and continuous efforts to understand the requirements of the people has made the organization a well-known name among the clients. His wide reach to the people has spread our supply-network to distant places in the country as well as to international domain in a respectable...
