## About Us

Telimart Systems was established in the year 2006. We are a young and dynamic organization involved in manufacturing, supplying and exporting a highly advanced range of RF microwave antennas and components. Evolving rapidly since then, we have managed to excel and craft a name in this realm and are capable of catering to a wide spectrum of communication service providers. Our product range is used for terrestrial and satellite RF communication such as the cellphone communication, data and wireless WAN/LAN, radio, television and other microwave communication service providers and also by defense communication establishments like navy, airforce and army. Further, we are noted for our ability to provide custom made products that exceed the demanding requirements of the clients and offer excellent performance. We are backed by a highly skilled team of RF technocrats, who are facilitated with our highly advanced manufacturing unit. In a short span of time we have managed to establish a huge clientele based all over the Indian Subcontinent, Caribbean, East Europe, Central America, North Europe, Middle East and Australia/NZ. In addition to the standard range, we also offer customization and OEM services to the clients. Also, being based at Banguluru, India, we are well connected to the major markets by sea, air and rail routes. We also accept a gamut of payment options including Cash, Cheque, Credit Card, DD, Escrow, LC, Online and Pay Order to facilitate the clients.
