About Us

The Teak House was established in the year 2015. We are leading Manufacturer and Supplier. The TeakHouse aims to look for good and time tested design and make them with exquisite Indian craftsmanship. We are blessed with excellent timber like teak and many other lesser known ones. Many of them are excellent material for furniture making. We also have fine carpenters, with experience and grounded knowledge .

Cane wicker and Metal is another of our series in time tested black frames (hard to fiddle with in terms of aesthetics). Fine bamboo wicker work is possible in our countries where labour for such crafts are still available. These designs are an ode to traditional crafts, but detailing is minimalist, with an eye on modern day user. You will also notice a fetish for chairs. Chairs are a difficult furniture to make. Chairs are like people silently sitting in the room but still have a strong presence in shaping the ensemble.
