

Ticket Design

<https://www.indiamart.com/ticketdesign/>

we offer a range of services to suit your needs. For us no project is "big" or "small" for we enjoy challenges at every level. Our services include: Product Design, Product Styling, Application Development etc

About Us

At Ticket Design, we convert product ideas into tangible, manufacture worthy solutions. With our understanding of engineering, production processes and most importantly the end users - their behavior and needs, we attempt to enrich product-user experience at all levels. We develop projects from scratch and with special emphasis on aesthetics and ergonomics. We aim at creating and developing concepts and specifications that optimize the function, value, and appearance of products and systems for the mutual benefit of both user and manufacturer. We emphasize on those aspects of the product or system that relate most directly to human characteristics, needs, and interests.

Our services include: Product Design, Industrial Design, Product styling, Application Development, Design adaptations to match the market feedback, Systems Design, Applied ergonomics and interface design, Product accessories, Retail display Packaging, Technical illustrations, POP packages, Product graphics and product documentation.

We have successfully completed a wide range of projects in areas like consumer durables, electronic, medical and automotive products. Our experience gives us an insight into these industries which in turn reflects in the products we design.

We feel that great design makes products attractive to customers and rewarding to use. It is design that can give a product its competitive edge and added value in a highly competitive marketplace!...
