

Textile Machinery Mfg. Pvt. Ltd.

We are engaged in manufacturing and exporting of material handling equipment that includes portable scissor lift tables, platform trucks, dock levelers etc. Our equipment is known for high tensile strength and rugged construction.

About Us

Established in the year 1943, we Textile Machinery Manufacturing Company, are engaged in manufacturing, exporting and supplying a wide range of optimum functionality oriented material handling equipment that includes work platform, portable scissor lift tables, freight car lifts, dock levelers, powered platform truck, hydraulic pallet trucks, hydraulic stackers, pillar jib cranes & floor crane. Apart from this, we are also importing our gamut that finds its application in different industries. With the assistance of our state-of-the-art manufacturing facility which is backed by sophisticated machines and most advanced technology. We have all the essential tools and equipment in our manufacturing unit which facilitates smooth production of the range. Our team of skilled and trained professionals enables us to keep pace with the international trend of the market. Also, we maintain high standards of quality in the production process. For this, we have quality auditors who enable us to utilize the available resources in the best possible way. They are solely responsible for the quality of each product manufactured by us. This further, enables us to meet the mounting demands of different private and government owned industries. Effectively managed by our mentor, Mr. Manan Gandhi, we are able to carve a niche for our selves in the domain of fabricating material handling equipment. With his rich industrial experience, we are tremendously progressing and meeting high altitudes...
