

Tyche Drilling Fluids India Private Limited

<https://www.indiamart.com/tyche-drilling/>

The primary family business is manufacturing and supplying of specialty chemicals to Oil Drilling companies.

About Us

- The primary family business is manufacturing and supplying of specialty chemicals to Oil Drilling companies. To move the business under professional guidance and management, the flagship company by name Tyche Drilling Fluids India Private Limited was established in 2001, which today has acquired the complete skill set and infrastructure to seamlessly integrate the various legs of the oil drilling exertion and has made a place for itself in the industry.
- Tyche provides comprehensive mud services in addition to the drilling products. The Service undertakes a complete study of the drilling fluid system, formulate mud programs to specific conditions and provide expert recommendations. We specializes in the supply of urgent, critical and emergency material requirements for Oil & Gas Drilling and exploration, Pipeline Projects, Refining and Transportation, etc.
