<https://www.indiamart.com/umaindustries/>

We are one of the leading manufacturer of a wide range of chemicals and medical instruments. We design and install MGPS - medical gas pipeline projects and medical pendant or ceiling pendent as per customer requirement.

## About Us

Established in the year **1978**, **Uma Industries**, is engaged in manufacturing a wide gamut of chemicals and medical instruments. These products encompass anesthesia machine: medicare alpha, anesthesia machine: medicare omega, process know how and process plant and machinery for sodium silicate from rice husk / hull ash (rha), bismuth salts, MRI compatible equipment / instrument and furniture, compatible instrument, medical pendant, ceiling pendent, and chemisorb. We also design and install MGPS. We are also engaged in offering complete after sales support to our clients for central gas line and gas pipeline projects.

The team of skilled professionals strives hard to offer a quality range of instruments to the clients. These products are manufactured using advanced machines and equipment. Further, these are tested on different parameters to ensure that the products are in compliance with the international standards. Our organization has established a firm position in the industry. We are reckoned for meeting the varied requirements of the clients across the industry and this has enabled us to establish a vast client base across hospitals, nursing homes, medical colleges and government sectors.
