About Us

Established as a **Proprietor** firm in the year **2017**, we “**Umiya Plastics**” are a leading **Manufacturer** of a wide range of **Garbage Bag, Poly Bags, Stretch Film Roll**, etc. Our offered products are manufactured by making use of high quality polyethylene material with the help of modular machines in compliance with set industry norms. These products are widely used for packaging purpose in different industries. To maintain product quality, we have setup a separate quality testing unit that enables us to check the quality as per the set industry standard. We offer these products to our clients in different colors, sizes and thickness as per their necessities. These products are widely appreciated by our clients for their number of features such as light weight, eco-friendliness, smooth texture, recyclable, tear resistance and durability. Our offered products are made available at reasonable prices.

To meet urgent and bulk order of our clients, we have setup a wide spread infrastructure unit. This unit is operated under the visionary guidance of highly knowledgeable professionals, who possess years of experience in their respective domain. We follow ethical business policies and transparency in all our dealing to meet specific demands of our clients in efficient manner. Moreover, we are also interconnected with wide distribution channel that help us to deliver these products in safe and timely manner at user's end Our entire...
