About Us

M/s United Elevator group started there business in 1992 as a lift maintenance and servicing organization. Within a short span of time UE became a pioneer in lift servicing and was maintaining close to a thousand elevators in West Bengal, Bihar, UP & Bangladesh in the early eighties. After having exposure to wide variety of elevators, UE started renovation and installation of single speed elevators with exclusive technologies since early nineties. In the late nineties, UE became a small scale manufacturer of single speed elevators. Since the year 2006, UE started developing fully indigenous microprocessor based lift controls using state of the art hard wares from multinational giants like Rockwell, Siemens, Yaskawa and Toshiba to name a notable few. Manufacturer and exporter of round glass lift cars, unique elevator system etc.

Current competencies encompass ,supplying lifts for each and every application. Thanks to our state of the art indigenously developed technology and industry experience, we are successfully able to lock horns with many of our competitors like Otis, Kone, Mitsubishi, ThyssenKrupp, Axis etc and have proved to be second to none in the regions we operate.
