

Upashna Enterprises

<https://www.indiamart.com/upashna-enterprises/>

We are one of the reputed organizations involved in trading & importing a variety of Industrial Chemicals. These include Sulphuric Acid, boric acid, Ferric Chloride, Hydrochloric acid, Iso Propyl Alcoho & Potassium Nitrate in Delhi NCR.

About Us

Established in the year **2005** at Gurgaon, Haryana (India), we, “**Upashna Enterprises**”, are one of the well known names engaged in manufacturing and importing a gamut of **Industrial Chemicals in Delhi NCR**. These chemicals include **Sulphuric Acid, Liquid Bromine, Copper Chloride, Solvent Red** and **Potassium Nitrate**. Highly appreciated for their non-toxicity, purity and accurate composition, these are in compliance with international quality standards. These products are widely used in various industries such as agriculture, chemical, textile and are available at very competitive prices in the market. We are backed by hardworking professionals who continuously innovate new process to make effective products as per the changing requirements of the customers. They are very enthusiastic, trained and sincere professionals, who have years of experience in their respective domain. Our advanced processing unit helps us in formulating all our products with utmost care assuring cent percent quality. Further, for assuring smooth operations, we have segregated our unit into several sections such as Material, Production, Sales and Finance & Accounting. Our client oriented approach, transparent business dealings and timely delivery of consignments have garnered a huge customer base for us. Our mentor, **Mr. Satish Kumar**, is a Chemical Engineer and Business management Graduate and holds deep knowledge in the field of chemical...
