

Varun Chemical Corporation

<https://www.indiamart.com/varunchemical-corp/>

We are a distinguished name in the field of supplying organic and inorganic pigment powder and pigment emulsions, chemical dyes and additives used for paint, ink, plastic, FRP, detergent powder, rubber coating and textile.

About Us

Established in the year **1988**, **Varun Chemical Corporation** is one of the leading names engaged in retailing and trading Pigments, Dyes and Additives. We offer pigments in the form of powder & pastes along with customized additives. We provide our clients **Basic Dyes, Solvent Dyes, Organic Pigment Paste, Organic & Inorganic Pigment Powder & Emulsions Inorganic Pigments** and **Customized Additives-Dye Intermediates**. These are extensively used in textile, food, chemical, leather and paint industries and have set benchmarks for high efficiency and reliability. These chemicals are procured from the reliable manufacturers, who formulate these using latest technology. Moreover, these are used for various purposes such as FRP, detergent (powder and cake), textile printing in textile, food, chemical and other industries. Our associations with the leading vendors, who formulate these chemicals and dyes as per the international quality standards, enable us to deliver optimum quality output to our clients. We are operating in this field with the aim to serve our clients with the best, which places us at the forefront of chemical industry. This not only helps in expanding our market reach but enhancing clients business as well. We carry out all our business activities in a methodical way in order to maintain consistency throughout. Besides, we conduct numerous quality checks by using latest testing machines and ensure to deliver pure...
