About Us

The products we offer are **Linear Motion Bearing, Linear Guides, Linear Guide ways, Ball screws and nut, Linear Actuators, linear Modules, Ball Bearings, Roller bearings, Special bearings like High Temperature Bearings, rod end bearings, four row taper roller bearings, Slewing Bearings** etc. We boast of new items ahead of our competitors. These bearings that are currently in huge demand are slewing bearings, Linear Bushing, Linear Carriage, pillow blocks and so on. The range of products offered by us is of premium quality that boasts of clients confidence. We keep on upgrading the standard of models and procure our products from renowned international brands offering best quality products. We simply don't rely on our sources but do thorough verification and kinds of requirements matching newest models without any scope of getting obsolete or outdated. This substantiates our place in the market and our credibility to each and every corner of the country or abroad.

The offered products are made from high quality raw materials matching international standards. These are available in different lengths, sizes, width, as per customized demands of the clients. As said, we assure the credibility factor on the part of vendors because we want manufacturing quality to be perfect without any taint. Further, being a largest importer and distributor, we strive our best to maintain international quality while delivering products to the clients. Its client- satisfaction that...
