## About Us

In order to bring changes in pattern of our product range, we obtained our corporate legal identity as “**Vijay India Fashion**” in the year **1999**. We specialized in **manufacturing, exporting and supplying** an exclusive range of **Fancy Sarees, Stylish Sarees, Party Wear Sarees, Wedding Sarees, Bhagalpuri Sarees**, etc. The offered sarees are crafted by our fashion designers as per the current designs and patterns. Our offered sarees are suitable for any occasion like marriage, festivals, formal and informal parties, etc. These sarees are widely demanded for their enormous features such as colourfastness, light weight, easy to wear, tear resistance, attractive colour combination, fine finishing and long lasting shine. In order to craft these sarees in latest pattern and bulk amount, we have installed our infrastructure base unit with modular stitching machines and technologies. These machines are handled by our skilled tailors and technicians to bring flawlessness in product range. On the other hand our quality analysts keep testing our product quality since the procurement of fabric till final finishing. Based in **Surat (Gujarat, India)**, we are able to attain distinguish and remarkable position in the market. Our entire business operations are effectively handled by our highly knowledgeable mentor, “**Mr. Prakash Jain (Owner)**”. His management skill and client engaging talent inspire our team members to work...
