About Us

Established in the year **1996**, we “**Vitrag Chem**” have been engaged in importing, supplying and trading a premium array of chemicals and solvents. We are a pre-eminent and top-notch importer, supplier and trader of a comprehensive range of chemicals and solvents. These are widely appreciated by our clients due to purity, accurate composition and precise pH value. These are procured from some of the well established and reliable manufacturers in the industry in order to provide quality range to clients. Our chemicals and solvents are known for purity, precise pH value, accurate composition and longer shelf life. We offer all types of **Industrial Chemicals & Solvents which are used in various industries like Pharma Industries, Compound Industries, Coating Industries, Paint Industries, Resin Industries, Plywood Industries, Textile Industries, Packaging Industries and Polymer Industries.** Being a prominent importer and trader, we have developed a wide distribution network across the country to deliver the procured range to clients in a timely manner. The sourced range of chemicals and solvents is first stored in our warehouse and tested on well defined parameters before being supplied to clients. With our quality chemicals and ethical & transparent business activities, we have been able to maximize the satisfaction level of our clients. Under the proficient guidance of our mentor “**Mr. Satish Mehta &...**”
