

# V.S. Metal

<https://www.indiamart.com/vs-metal/>

Manufacture and export of copper fittings and copper products.

## About Us

Established in 1966, **V. S. Metal** is a familiar name for precise quality and precision Instrumentation products. A quality manufacturer of tubing, fittings & valves and distributor of copper plumbing systems — **VSM** provides an unmatched advantage of being “One point procurement destination” for any instrumentation and copper plumbing products. Consequently cutting on the delays and procurement costs of the clients. VSM’s stringent manufacturing parameters has earned it an **1S09001:2000 certification**. Fully equipped to deliver sizeable orders at shortest notices - Every unit manufactured at **VSM** passes through exact technical and quality parameters. Whether raw material or final product inspection, **VSM’s Internal Quality Control Team** applies profound checks at every stage. Moreover, its in-house tests involving hydro-tests, pneumatic tests, ball tests, hardness test and dimensional checks confirm optimum product standards and consummate workmanship for client satisfaction. **VSM** acknowledges the relevance of constant up-gradation and is a keen innovator and applicator of new technologies for better services to its clients. The innovations are complemented by **VSM’s** expanding product range fulfilling the product requirements across a span of industries.
