About Us

About 23 years back it was felt there was lacking of expert hand in giving proper solution domestic/industrial water supply and for selection of proper pumpsets for the purpose and introduction to new products for the benefits of the customers. Thus WATERLINE CORPORATION was set up with the dealership of one reputed multinational company. We are proud to be first to introduced submersible pumpsets in domestic and government departments in this area about 25 years ago. During the period, it was market for Jet pumps and coupling type Centrifugal pump. Over the period, we have introduced lots of new products for the benefits of customers and many new reputed companies and of late we have introduced Grundfos pumps and opened new horizon to our customers in North Bengal, Bhutan and Sikkim. Our customers' know how and product knowledge are being updated by us at par with other developed metrocities of India. Our view is to give the best world class products which payback to our customer, cut the power bills and run for year after year without trouble. If we earn Rs.1.00 , we spend Rs.0.25 for the customer services. Customer services is our strong base The only reason of our success is quick service to the customer. Now , we are the authorized dealer of Grundfos Pumps India Pvt. Limited , the MNC who are world no. 1 in manufacturing of various application of pumpsets. Our website linked with Grunfos website will give you clear...
