Western Engineering Co.

<https://www.indiamart.com/westernengg/>

We manufacture cold rooms, water chilling machines, hot water generators, fan coil units, air handling units, air cooled chillers, heat pumps etc.

About Us

Established in the year **1964**, **Western Engineering Company** is a well-known manufacturer and exporter of an array of split air conditioners, window air conditioners, refrigeration plants, hot water generators, industrial refrigerating equipments, industrial water generators, refrigerating equipments and chilling units in India. We are also engaged in designing, installing, commissioning, operating and maintaining all types of ventilation, heating, refrigeration plants and air conditioning in all capacities. Our robust infrastructure equipped with modern machinery, has enabled us to complete bulk consignments within the stipulated time frame. Further, our competent workforce enables us to efficiently serve our clients by adhering to the delivery schedules and their requirements. Under the able guidance of our mentor **Mr. T. R Khan**, we have been able to carve a niche in the industry. His wide experience has helped us in providing products that are at par with the international standards.
