About Us

Wolkem's mines are true repositories of the highest quality available in natural form. Today Wolkem owns mining leases for minerals like Wollastonite, Calcite, Talc, Limestone (for Steel and PCC) and Dolomite across Rajasthan, Tamil Nadu, Himachal Pradesh and Uttarakhand States of India, besides a White Marble and Calcite mines in Chau Tien Commune (Quy Hop, Nghe An) in Vietnam. These mining reserves are projected to sustain their yields well into the future.

In order to secure the exact mineral characteristics and to ensure long term supplies, Wolkem constantly examines, excavates and conducts geological surveys to locate new deposits of existing and new minerals. Wolkem's highly skilled and experienced team of geologists are aided with cutting edge techniques and mine survey equipments

In fact Wolkem was one of the first few Industrial mineral mining companies in India to use the sophisticated Data Mine geological and mine planning software

What makes Wolkem's business philosophy special, Wolkem owns the mining leases for the minerals it manufactures. This philosophy ensures long term supply commitment to its customers. Wolkem is truly a Mines - to - Market Company.

The mining operations, were one of the 1st Indian industrial mineral operations to get ISO14001 and ISO 9001 certification

Wolkem combines vast natural resources, geological planning and scientific mining to ensure consistent quality...
