# Yash Cooling System

<https://www.indiamart.com/yash-cooling-system/>

We are one of the leading organizations engaged in manufacturing, supplying and trading wide range of Cooling Coils and Condensers. These products are known for their attributes such as durability, corrosion resistant and sturdy construction.

## About Us

Established in the year **1996**, we, “**Yash Cooling System**”, are a noted firm in manufacturing and supplying an exquisite array of **Cooling Coils** and **Condensers**. We make use of optimum quality raw material to manufacture these products that enables us to provide our clients with the quality assured range. Our product range is highly demanded and appreciated for its attributes such as trouble free serviceability, consistency in operation, sturdy design and longer working life. We have established a sound infrastructure that helps us to meet the bulk requirements of our valued clients. Our unit is equipped with sophisticated machinery and latest technologies that help us to provide flawless range of products to the customers. Further, clients can customize these products as per their specific requirements. Owing to the transparent business dealings and ethical business practices, we have gained us a huge clientele spread across the nation. Under the visionary guidance of our mentor, 'Mr. Parag R. Patel', we have managed to attain reputation and respect in the countrywide market. His leadership qualities and domain expertise have motivated us to meet our desired goals on-time.
