About Us

Yogeshwari is a growing Engineering group of companies, engaged in MANUFACTURING of rubber parts, plastic parts, press parts & fabricated assemblies in aurangabad, india.

The company is pouring its best in creativity, production and quality control, to widely expand its wings into vast Indian market and looking for export opportunities. To keep pace with fast changing technology in Rubber Processing Industry and in plastic processing industry, Yogeshwari is in continuous process to create an aura of latest technology by keeping track with latest manufacturing machines.

Our core competence lies in Rubber , Plastic & Press / fabricated assembly processing technology. Yogeshwari has made its presence increasingly felt over the last 6 years and is accredited with the Customer Base across the country. However, this technological competence has not emerged overnight, it has been learned in a hard way, over a period of time involving mistakes and blind allays as well as success.
