About Us

A1 Quality Instruments was established in the year 2003. We are one of the leading supplier of testing & measuring instruments required for quality control purpose. Our product range includes Ultrasonic Thickness Gauges, Coating Thickness Gauges, Hardness Testers, Gloss Meters, Moisture Meters, Packaging Testing Machines & Various Laboratory Equipments required for quality control. With extensive expertise & testing experience, we have been serving this industry from past 10 years. With our credentials and calibre, we have made a strong presence in the national as well as international markets.

Our testing instruments are used in research and development and quality control applications to test the strength, elasticity, durability & properties of materials including Rubber, Metal, Plastic, Textile, Composites, Ceramics, Paper, Wood, Medical Devices & Wires etc. Continuous innovations, highest precision and best quality characterize our worldwide demanded products. Through continuous customer focus & maintaining total transparency in our operations surely, we will also find the perfect solution for you. We look forward to get an opportunity to be registered under your approved supplier list in order to serve you better.
