About Us

Our Factory and Registered Office are situated in Hubli, Karnataka, India. We are manufacturing pump series of MSP, AKP and CHP-LT Series of AAVAN models in various sizes considering different applications and utilizations of clients.

We are a decade old manufacturers of pump particularly chemical process pumps which guarantees more than one and a half times the performance in quantity and head in the respective classes of pumps comparing to any other brand pump.

Further assured service during the guarantee period of one year at company's cost and thereafter service at customer's request.

Scheduled delivery along with assured quality is our specialization.
