Accura Valves Pvt. Ltd.

<https://www.indiamart.com/accura-valves-limited/>

In addition to our manufacturing tube valves we are also an engineering company capable of making precision turned components at Zero ppm levels year after year.

About Us

India's second largest manufacturer of automotive tyre valves, valve cores and accessories. We also make precision components for two and three wheelers. Started in 1995 at Sinnar, in Nashik District, Maharashtra State, India. Accura Valves rapidly expanded to three locations to cope with industry demands. Accredited ISO 9001 : 2000 in the year 2001 followed by ISO/TS : 16949 certification in 2009. Working with a team of over 300 dedicated personnel, inclusive of engineers, rubber technologists to meet OEM as well as after-market requirements. Our team and machineries are suitably equipped to handle any special customer requirement at short notice. Capability to manufacture tube and tubeless valves for all vehicles, OTR, industrial, agricultural and defence applications. Our products confirm to all prevailing International Standards such as ITTAC, JIS, T&R, DIN etc. In addition we are also an engineering company capable of making millions of precision turned components to 5 micron tolerance at Zero ppm level year after year consistently. DOL precision component supplier to Keihin-Fie, a Honda group company and world's biggest carburetor manufacturer. Individual plants for tube & tubeless valves, metal stems & short cores and turned components with state-of the art manufacturing & testing equipments.
