# Accurate Engineering Works

<https://www.indiamart.com/accurateengineering-works/>

**Accurate Engineering Works** is a leading firm engaged in **Manufacturing and Supplying of Fasteners**. These fasteners are widely acknowledged in workshops and other places due to longer life functioning and easy installation.

## About Us

In 1991, **Accurate Engineering Works** came in existence in Indian market. The firm is presently **Manufacturing and Supplying Industrial Bolts, Metal Screws, Industrial Shafts, Industrial Rivets, Industrial Studs, U Bolt Clamps, Metal Roller Pins, Non Ferrous Fasteners, Bolt and Nuts and Industrial Washers** and many other products. All our supplied fasteners are reliable in nature and available in market in different shapes and sizes. We make our fasteners with the use of best and durable metal which is recommended by mechanical experts. All these products are light in weight and very easy to install in different machines and other surfaces. These metallic joining solutions are easily accessible from our firm in several configurations.

Our mechanical engineers are highly trained in different training classes and seminars. To meet with the perfection, our experts are highly dedicated in production process. We have updated machineries in our production unit to assist the production in convenient ways. We procure all our raw metallic parts from genuine suppliers of the market. Transparent dealing is done by our quality experts to procure quality embedded raw material. We shape each and every fasteners of our unit very keenly to meet the global level standards. Also, with the support of the consumers, we are rapidly growing in the mechanical domains.

Our mentors **Mr. Mohammed Afzal** and **Mr. Mohammed Junaid** are consistently making...
