ACME Scientific International

<https://www.indiamart.com/acme-scientific-int/>

Our organization is among the leading Manufacturers, Suppliers and Exporters of optimum quality Abrasion Testing Machine. Entire range of our products is highly acknowledged in the market for its qualitative attributes.

About Us

Established in the year 1996, “**Acme Scientific International**”, a Manufacturer, Supplier and Exporter of premium quality **Abrasion Testing Machine**. Owing to our dedication towards our work and customers, we are able to provide an premium line of products which is highly acknowledged for its qualitative attributes like preciseness, accuracy, high resistance to corrosion and long operational life. Our product is used at large in various industries for the purposes of detection of abrasion in metal articles. We have been serving to a large client base spread all over the globe. Abetted by a fleet of dedicated employees, we continuously thrive to further enhance the design, reliability and performance of our range of products and provide an optimal range to customers. We are felicitated with experienced Research and Development Department that assists us in innovating our product range and updating the existing product range with the latest technological advancements and developments. Our quality controllers help us to offer a flawless range of products by conducting strict quality checks. We are also backed by an elaborate warehouse which acts as a base to cater immediate and bulk needs of our customers. “**Mr. Harsh Bhardwaj**”, our mentor, one of the most prolific personalities of our organization. His ethical approach and bight vision have been instrumental in shaping the success path of the organization.

SOIL TESTING EQUIPMENTS

Plate Bearing Test Apparatus

Marsh Cone Testing Equipment

Heavy Compaction Testing Equipment IS: 2720 - Part - VIII

Direct Shear Apparatus

CEMENT CONCRETE TESTING EQUIPMENTS

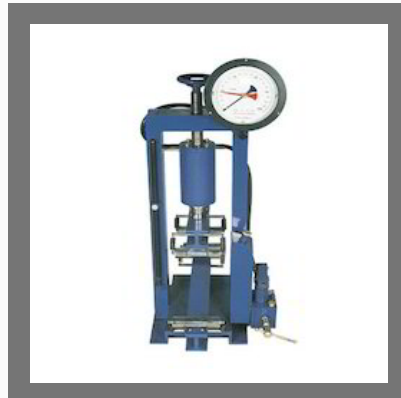

Impact Value Testing Machine

Channel Type Load Frame

Pocket Concrete Penetrometer

Hand Operated Flexure Testing Machine

CEMENT, CONCRETE, AGGREGATE TESTING EQUIPMENTS

Hydraulic Jack

Automatic Compression And Flexural Machine Acme-651

Concrete Permeability Apparatus - Single Cell

Tile Flexure Testing Machine

MATERIAL TESTING EQUIPMENTS

Pendulum Impact Testing Machine

Unconfined Compression Apparatus

Soil Penetrometer Hand Operated

Los Angeles Abrasion Apparatus

GENERAL LABORATORY TESTING EQUIPMENTS

Muffle Furnace

Humidity Cabinet

Digital Hot Air Oven

Standard Test Sieves

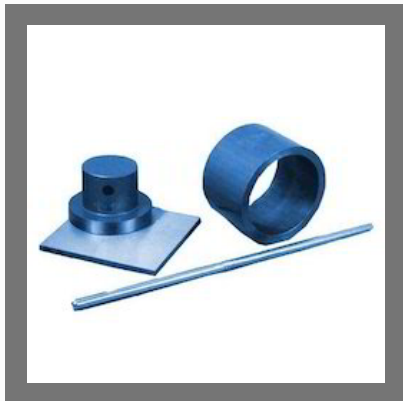

AGGREGATE TESTING EQUIPMENT

Deval Attrition Tester

Riffle Sampler Divider Is:
1607: 1960

Aggregate Crushing Value
Apparatus

Core Cutting Machine

BITUMEN TESTING EQUIPMENTS

Ring And Ball Apparatus

Sand Absorption Cone

Ring And Ball Apparatus Is:
1205- 1958

Marshall Stability Test
Apparatus

ASPHALT TESTING MACHINE

Film Stripping Test Machine

Mastic Hardness Tester

Electrical Rock Concrete Cutting Machine

OTHER PRODUCTS:

Brass Frame Sieves

Cone Penetrometer

Cube Testing Machine

Bench Mounting Asphalt Mixer

OTHER PRODUCTS:

Measuring Instruments

Aggregate Impact Tester IS:
2386 - Part - IV

Stripping Value Apparatus

Factsheet

Year of Establishment : 1996

Nature of Business : Manufacturer

Total Number of Employees : 11 to 25 People
