About Us

Acme India was established in the year 2003. We are the leading Manufacturer And Supplier of Shoe Laces. The products are manufactured in accordance with international quality parameters. Apart from this our quality controllers also perform various tests such as Static load, Vertical flame resistance test and Interior Materials flammability test for complete assurance of our products. Additionally, to suit the requirements of our clients we offer them with customized range of Products as per the specifications detailed by them.

Our organization depends on the dedicated efforts of the team members presented by them. They are well versed in their area of specialization in order to carry out the production process in an effective manner. Owing to our rich industry experience and qualitative products, we are able to provide our clients high quality products. All these products are available at reasonable prices and on due time period.
