About Us

It's unbelievable how a 6 yards of unstitched cloth could make a woman look her best. Combined with a number of fabrics, embroideries and accessories, Saree is one outfit that complements all occasions. Being an Indian, and seeing our mothers, grandmothers and sisters donning sarees, had somewhere planted the seed of ADAA in our mind. And that's the only and simple thought behind the inception of ADAA; to bring a range of sarees to suit the need of every woman. Our team of designers are well updated with fashion forecast, and keep up with the latest trends. Our offerings are not limited to traditional sarees but lehengaas and salwar suits. And why restrict ourselves to just one attire of our rich culture? Hence, we continue to bring you an adornment of beauty, elegance and grace woven in every Indian Ethnic Wear.
