## About Us

Adept Leal Software is a holistic web solutions organization that helps advance your business goals with its creative and technical expertise.

Whether we are building a new custom portal for a client, fixing a web-project gone wrong, or performing a makeover to an organization's identity, ALSOFT delivers. Our customers start seeing immediate progress in days, thanks to our transparent, interactive and agile processes.

Web development with ALSOFT feels and looks different: it is fast, evolutionary, even fun. There are no secrets -- you can walk into a ALSOFT project room and see exactly where we are at a single glance. We take good ideas -- best practices like collaboration, feedback, transparency, and testing -- and we build them into the fabric of the way we work. The founders have spent years, and learnt from early mistakes, building a set of ALSOFT development capabilities and reusable approaches that we believe to be best in its class.

Yet we understand that every problem is different, and our commitment to satisfy our clients far outstrips any affinity to a set of practices. Hence, with a strong focus on delivery and customer satisfaction we invite you to explore our various services and offerings.
