About Us

We are pleased to introduce “ADI N. COMPANY” as one of the growing manufacturer, launched in fly ash brick, brand name (ADI), resisted in west Bengal, India. FLY ASH BRICKS: Fly Ash brick is a product of basic cement clinker materials i.e. FLY ASH, SAND, LIME, and BONDING AGENT. The mix is so ideally worked out to produce bricks of higher strength with consistency as well as uniformity. The manufacturing process is fully automatic with state of art technology. Though a new age product introduced in the market, Fly Ash bricks are very well accepted by the organized sectors in heavy industries, high rise buildings, large townships, colonies, etc. because of unique features and merits.

INTRODUCTION

Fly Ash is a burnt residue of pulverized coal (bituminous or sub-bituminous) and is siliceous in nature. In past few decades, ADI N.COMPANY R&D efforts were undertaken and it has been proved that this material can be utilized in number of ways in building construction products as well as in civil works with adequate durability. Major areas of fly ash utilization are Building materials such as Bricks, Blocks, Tiles, etc. Also used in Grouting, Engineered fills for low-lying land spaces for human settlement, use in Road Construction and Construction of ash dykes and embankments.
