

# Advance Eco Controls Private Limited

<https://www.indiamart.com/aeco-controls-pvtltd/>

Providing market research, plant engineering services etc.

## About Us

Advance Eco Controls Pvt. Ltd. provides inputs from its Research engagements and consultancy inputs for industrialization. Our work is divided into three broad categories. Providing consultancy inputs for studying social and environmental impact of developmental plans, especially in implementing any Greenfield projects. Preparation of Project Design Documents (PDD) and Techno-Economic Feasibility Reports for any Greenfield / Brownfield projects, including procuring and securing land and technology that is suitable under pollution norms agreed to by member countries of the Kyoto Protocol. Providing consultancy in Clean Development Mechanism (CDM), especially securing the financial instruments and derivatives for new and old projects under CDM. Assuming that smaller governments have in place a Policy and Resources Strategic Planning unit (PRSP) mandated by agencies like the World Bank, the above inputs from Advance Eco Controls (P) Ltd. feeds into framing a balanced developmental policy. For example, taking inputs from local bodies to form Sector Wide Plans (SWAPs), would need research inputs from agencies that know their business, and are in a position to link micro with macro. In studies conducted by experts from Advance Eco Controls Pvt. Ltd., for example, we have been able to change sector plans, which in turn have helped formulate a meaningful policy at the macro level.
