Manufacturer of chain, crank assembly, chain adjuster etc.

About Us

AEON is a budding entrepreneurial enterprise conceived and executed by an Industrial Engineering Graduate and a Master in Business Administrative from a prestigious University of the country, with the sole purpose of injecting a degree of professionalism, efficiency, decency, decorum & discipline in the Industry. The whole project started as a modest venture with the manufacturing of just two types of sprockets catering to the need of the merchant exporters in Ludhiana.

This humble seeding which was conceptualized on December 8, 1992 is now a flowering plant involved in the manufacturing and exporting of 132 types of sprockets for moped & motorcycles in the domestic as well as Foreign markets. The unit started with the manufacturing of sprockets for Motobecane & Peugeot (MBK & PGT) Apart from this, we are also in the process of exporting wheel pulleys, Bearings, Central Axle with sprocket , shockers, silencers, pedals, centre stands etc.
