About Us

AG Bioteck Laboratories (India) Limited, (*AG Bioteck*) is established by Scientists of National and International repute having practical experience in the Biotechnology. The company was incorporated on 11th day of May, 1992 under the Companies Act, 1956 as Limited Company with the Regd. Office in Andhra Pradesh, India.

The main objective of AG Bioteck is to provide a commercial interface for Agriculture Biotechnologies to increase the Food production to meet the ever growing population.

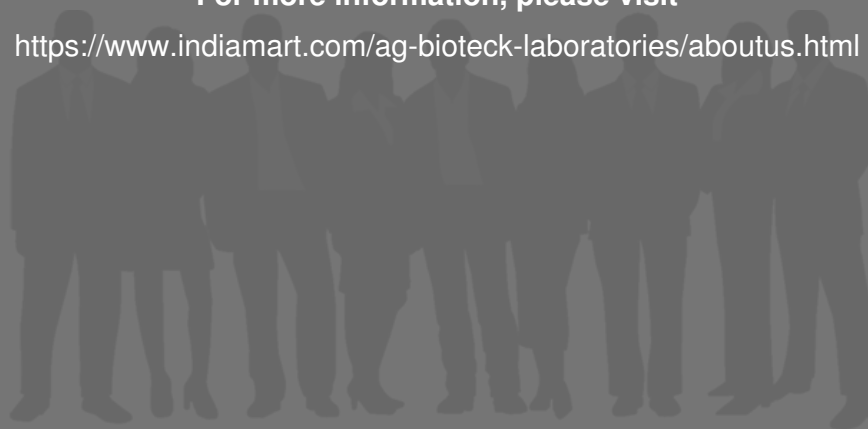

AG Bioteck has established Eco-friendly commercial "Modern Plant Biotechnology Unit" in an area of 20000 Sq. Mts. with a capacity to produce 6.0 to 9.0 Million T.C. Plantlets per annum. This facility was designed to produce world class products in 30000 sft. CLASS 10000 sterile clean areas at cost effective price.

The company supplies to the Agriculture, Horticulture, Forestry and tourism industry a wide assortment of plans such as cash crops, cut flowers, ornamentals, fruits, spices, medicinal and timber yielding woody trees, all of the highest quality. Because of commitment to quality and quantity, AG Bioteck, is the first organization from India, received accreditation to its Tissue culture Facilities for export of Tissue Culture plants from AQIS, Department of Primary Industries and Energy, Government of Australia.

AG Bioteck is regularly supplying Tissue Culture plants to the various Government Departments, Corporates and Individual...
