About Us

Aggarwal Clinic has been performing hair transplant procedures since July 2003 and has a strong medical background in dermatology. For the last 5 years, he's dedicated himself exclusively to practising the most sophisticated and advanced techniques in surgical hair restoration, leaving his dermatology practice to his associates. The Aggarwal Clinic team provides educational resources to dermatologists and to all healthcare professionals interested in treating and educating hair loss sufferers. The Aggarwal Clinic medical team is specialists and personally trained by the founder.
