About Us

Agpulse Organics, since its inception has been recognized for its quality Herbal Agricultural Inputs, used widely across all stages of crop production to increase the crop production, control pests, improve soil health and create favorable conditions for healthier plant growth. The Delhi (India) based Manufacturer and Supplier offers a variety of safe and effective Herbal Agriculture Pesticide and Insecticide, Organic Plant Growth Promoters, Organic Manure and Compost and Liquid Organic Fertilizer. all represent the latest innovations, a step towards Evergreen Revolution. We as a company deal in the product which are organic in nature and organic/natural farming. We believe that organic is way forward for the world and it can bring positive change to mankind.

Our company, with an aim to rejuvenate mother earth with natural products has redefined crop protection and growth technology by means of Ayurveda which protects and cure the disease of agriculture and animal husbandry by the use of natural herbs and minerals. We present new concept of organic herbal agricultural inputs for cereals, pulses, vegetables, fruits, flowers, plantation, fodder, spices, lawn turf, garden, pots and all other crops in agriculture. It is widely known that the residual effects of synthetic chemical pesticides are harmful for human being, therefore switching to natural inputs is good for soil, plants and human population. In this effort, we have lined up...
