## About Us

**ALEXIS** is two decade old group engaged in diversified activities of manufacturing, marketing & trading. During the past decade our corporate philosophy of value for customer through management based on esteem for human dignity has guided us through constant technological developments and innovations while enabling us to learn from and grow with our customers all around.

Committed to the Philosophy of continuous innovations, the focus of Alexis Group Research & Developments efforts has always been on developing products for Indian & International environments. User friendliness, ease of operation, longer service life, ease of maintenance of cost effectiveness is some of the values that guide our Research & Development efforts.
